

Чем мне нравится компания Google, так это тем, что она никогда не стоит на месте. Разрабатываются новые алгоритмы, новые сервисы, проекты и пр. Причем сфера её интересов не ограничивается поисковыми механизмами, а затрагивает культуру, искусство, естествознание и пр.

Вот и на этот раз Gogogle запустила свой новый онлайн сервис под названием «Координатор». Он получился настолько удачным и востребованным, что разработчики даже решили сделать его платным!

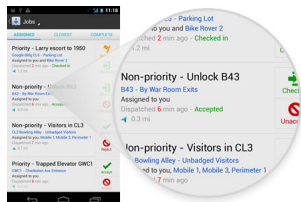

Думаю любой руководитель собственного предприятия хотел бы знать о том, где в настоящий момент находится его сотрудник и чем он занят.

Хорошо, если сотрудники работают в одном офисном здании – тогда можно установить на компьютеры что-то вроде сервиса по учету времени и наслаждаться контролем )) Но что делать, если сотрудники находятся в разъездах? Вдруг после доставки пиццы курьер решил, что пора бы подкрепиться и самому и в рабочее время засел в каком-нибудь кафе, а начальнику сказал, что пару часов стоял в пробке ))

Специально для таких случаев Google запустил свой новый сервис под названием «**Ко**

## ординатор

». Он позволяет видеть в онлайн режиме географическое местоположение всех своих людей и оперативно координировать их действия. Это отличный инструмент для таких сервисов, как служба доставки, служба ремонта, такси и пр.

Руководитель на карте может сразу видеть, кто ближе всех из его сотрудников находится у «нужного места» и назначает задание именно ему. Работа с сервисом возможна напрямую через веб-версию либо через Android-приложение с мобильных устройств.

На данный момент сервис «Координатор» работает в бета-режиме. До 01.09.2013 стоимость его использования будет составлять 15 \$/месяц, затем цена возрастет.
